

LEADER,

WHAT TYPE OF
DEMON IS THAT?
IT LOOKS A LOT
LIKE A MOUSE.

IT'S A GIANT
CYCLOPS RAT,
AN EXPERT AT
DIGGING HOLES.

FOR THE MOST PART,
THIS KIND OF RAT
LIVES IN THE SEWERS
BENEATH THE CITY.

ITS MAIN FORM
OF ATTACK IS
FIRING A LIGHT
BEAM FROM
ITS EYE.

IT USUALLY FEEDS
ON WASTE AND RE-
FUSE. UNLESS IT'S
DESPERATE.....

IT WON'T PREY ON
HUMAN BEINGS.

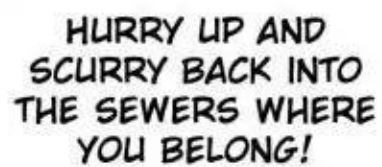

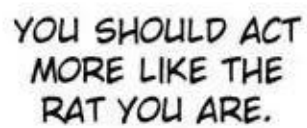

THIS ONE IS
CLEARLY
STARVING.

IT'S A GOOD
THING WE FOUND
IT IN TIME.

ALRIGHT, WE'RE
ALL HERE.

SO FAST! IT'S
EVEN FASTER THAN
THE WOLF BEAST
I FOUGHT!

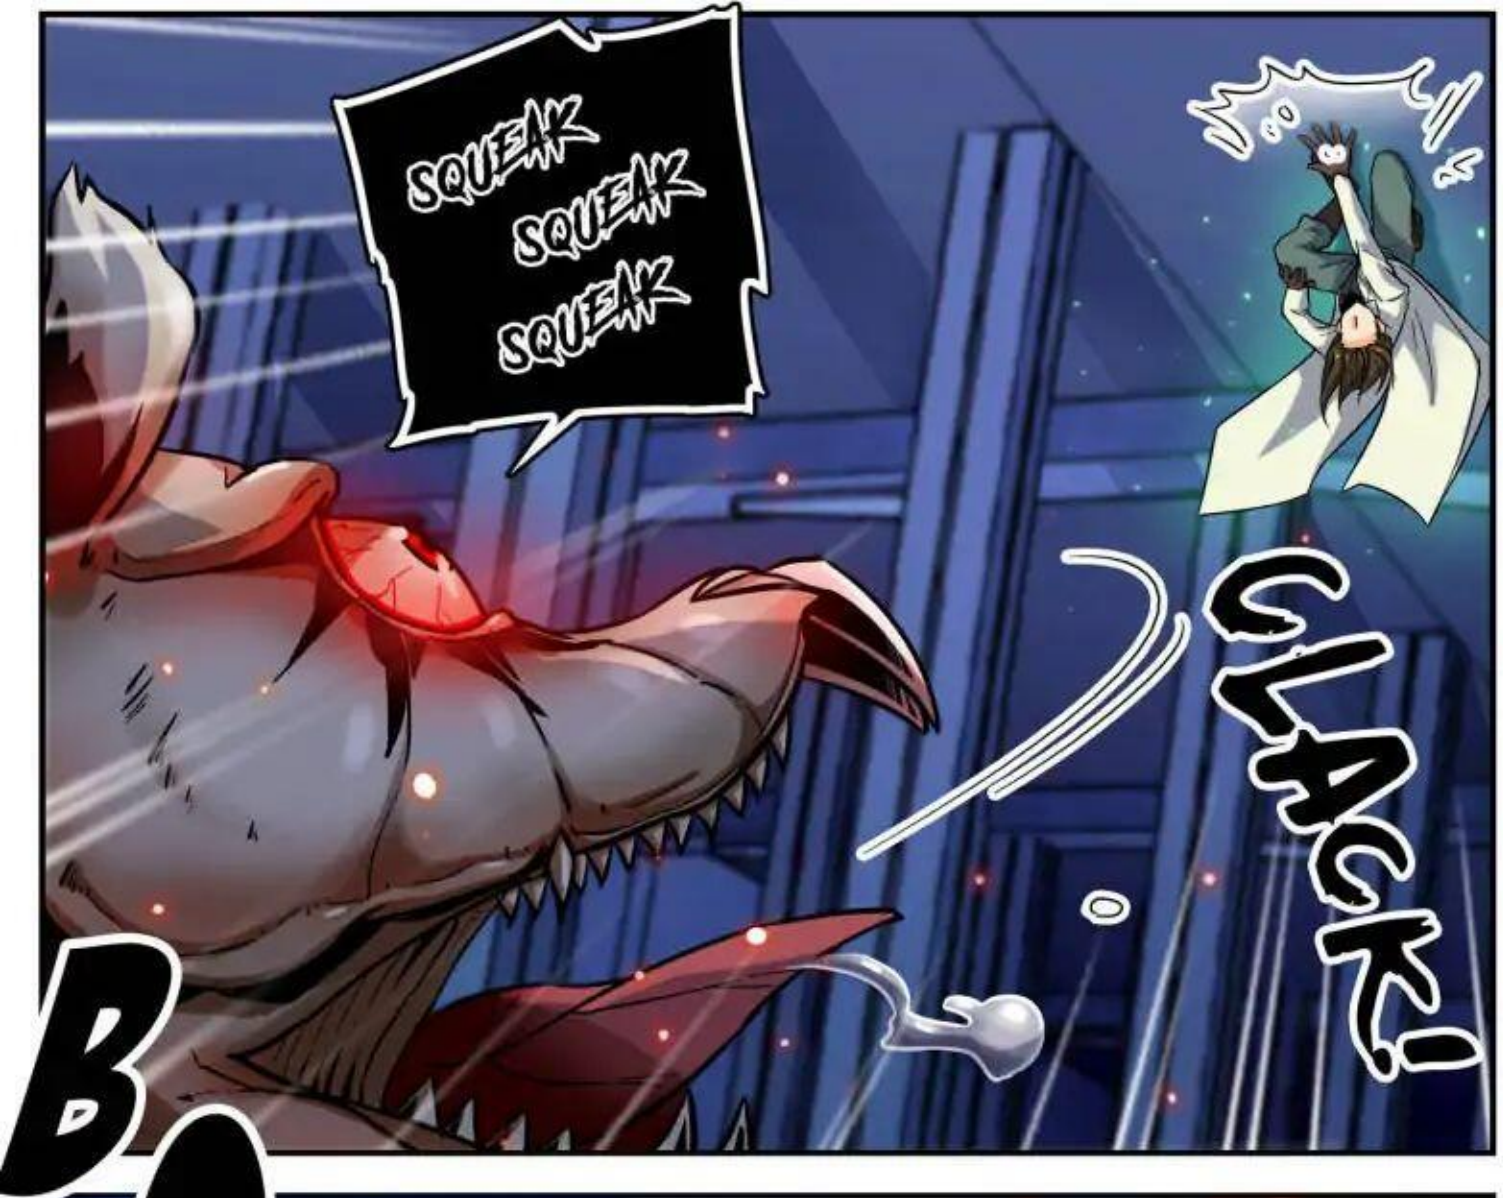

WIND TRACKS -
FLASH STEPS!

Uraaaaa!!!

AH...

YOU THINK YOU
CAN HURT ME WITH
MOVES LIKE THAT?

HEY, WHERE DO
YOU THINK YOU'RE
LOOKING?

COME HAVE A
TASTE OF THESE
FLAMES!
