SPIDER-MAN

High schooler Miles Morales was bitten by a stolen, genetically altered spider, which granted him incredible arachnid-like powers. This is a secret he's shared with very few. Since Miles' mother Rio learned the truth, she's struggled to forgive her husband, Jefferson, for concealing it. And after years of staying silent, Miles' best friend Ganke accidentally let it slip to a girl he likes—Spider-Man vlogger Danika Hart.

In another time and place, Miles' uncle Aaron Davis also knew, until his criminal lifestyle ended in death.

Recently, Miles' friend Lana's mother (A.K.A. Bombshell) tried to strong-arm her daughter into using their combined powers on a major heist—the new Iron Spider's Sinister Six are stealing an unused S.H.I.E.L.D. Helicarrier. Spider-Man confronted Bombshell and Iron Spider. In the ensuing battle, just before he knocked Miles unconscious, Iron Spider removed his mask—revealing Aaron Davis, back from the dead.
