R: In chapter 367, Sanji crushed that denden mushi.

That's awful!!! The denden mushi didn't do anything wrong! Even a denden mushi would cry if you did that to them! If they are hurt, don't they cry? Even worse, if their hearts are broken, don't they cry? You have to apologize.

-Naoko

O: Well, you see... Ah, I know! It looked bad, but it's totally fine. On the right, you see a wild denden mushi. Using radio waves (thought waves), they can talk with their friends. So when people attach a button and a receiver, they can also contact other specially equipped denden mushis. Therefore, even if the receiver gets broken, the denden mushi is all right.

R: Oda, that's sexual harassment.

-Female representative

O: What!? I haven't said anything even remotely sexual!! Seriously, I'd never do anything like that.

R: Nami's bust size is 95cm, but what's her cup size?

-Nami-lovin' erotic man

O: YOU'RE THE BAD GUY HERE!!! ↗ The only reason I get complaints from women like the one above is because I get questions like these!! But I would like to know. ♥ But cup size is hard to determine. I don't know "under" from "sander." So, female readers, please look into it. What are Nami and Robin's cup sizes? (← sexual harassment)
