For a girl who doesn't really believe in violence, I seem to run into waaaaay too many fights.

You can't escape me, Spider-Girl.

Not when I can fly after you.

Fly?!

As IF!

You're just floating...

She may call herself *Push*, but I know her better as my former classmate *Nancy Lu*.

Okay, maybe I did exaggerate a little.

But I can still slow you down--!

Gotta give the girl props.

Her telekinetic powers have increased significantly since she began studying with the X-People.

That's why I called her to discuss *Sara Hingle*.

My name is May "Mayday" Parker. I am the daughter of Spider-Man and I really need help with another young mutant who seems to be at a...

After saying goodbye to Nancy, I web my way back to Midtown High where I stashed my civvies.

Gene's going to be furious.

Can't really blame him, either.

I keep promising to be the perfect girlfriend--

I hit the girl's locker room for a quick shower and then race to Café Indigo.

I immediately spot Nancy and Jack Jameson.

Seems floating has its advantages.

Now where is--

--but I always ditch him in the end.

Simone--!

Gene is with Simone, again!

Why does it always have to be Simone?!

I absolutely refuse to play this game anymore. I'll just--

Whoa!

Parker--?!

Why the big hurry?

Ryker's Island Prison...

I have news, René...

...my dear, sweet Normie dropped in for a surprise visit.

It seems he stumbled upon a family heirloom while visiting his grandfather's estates in Europe.

Stumbled, Élan?

He was practically dragged to that so-called secret laboratory by the nose.

His heirloom has never left our watchful eyes.

Our people even owned the shipping firm he surreptitiously hired to smuggle it into the United States.

Why didn't you tell me that Project: Changeling had begun?

I didn't want to get your hopes up.

I can only assume how anxious you are to rejoin us.

You have no idea.

I call Gene a thousand times that night.

It's no big surprise when he doesn't answer...

...if I ever get my hands on the clown who invented Caller ID...

--fully prepared to grovel my way back into his good graces.

You ready to leave for school?

I'll see you later this afternoon.

I still have to feed Ben and wait for your father to get home from work.

How much longer is he going to be on the 12 to 8 shift?

Why?

What difference does it make to you?

Hey, Dad! I was just--

W-what happened to your face?

Lab accident.

My fault.

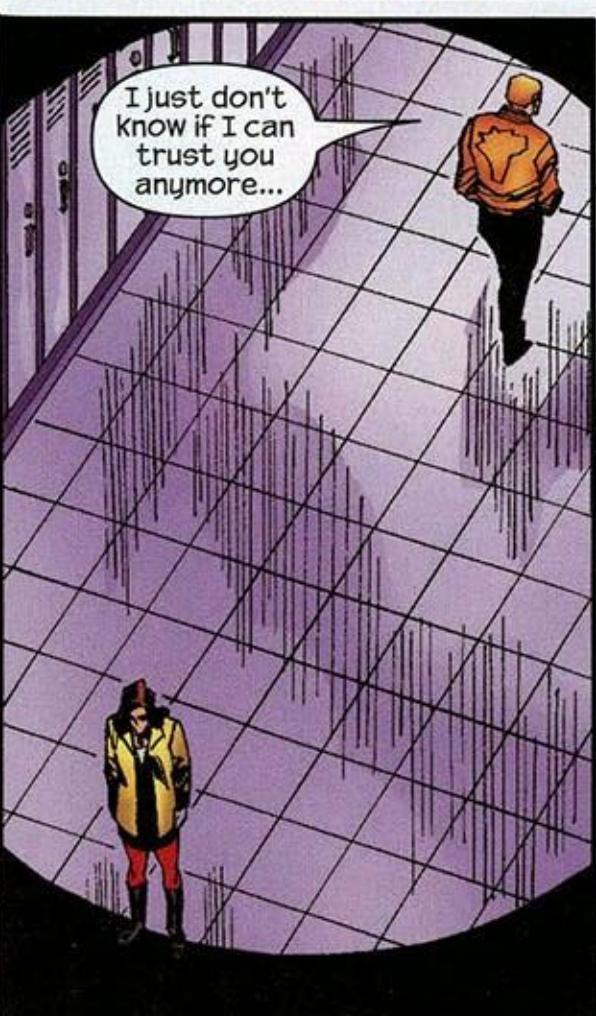

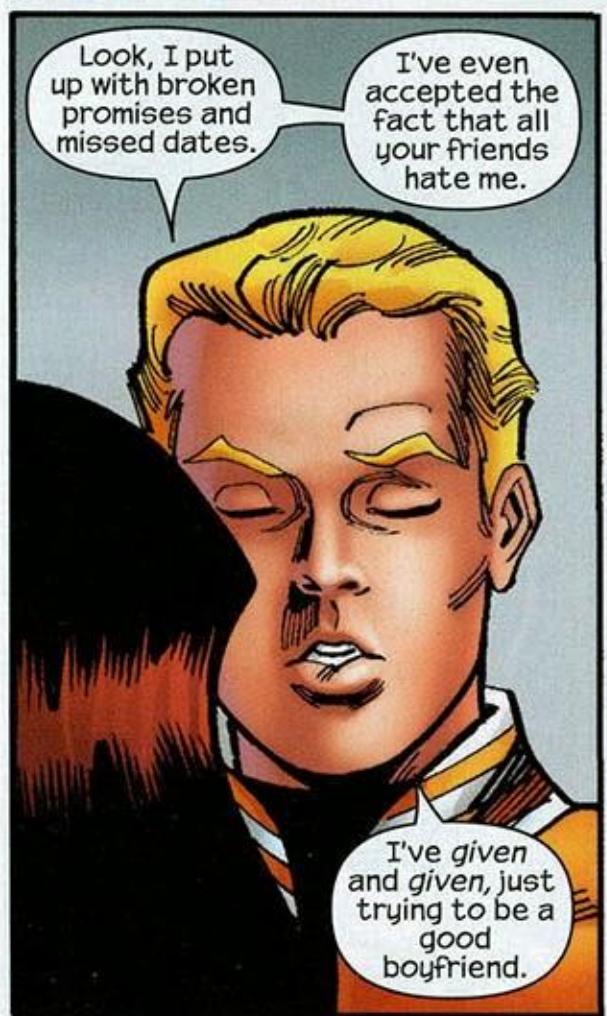

I let my guard down.

But that will never happen again.

It's not like I've done anything wrong.

What crawled up his nose?

Have I?

A lab accident--?!

Yeah.

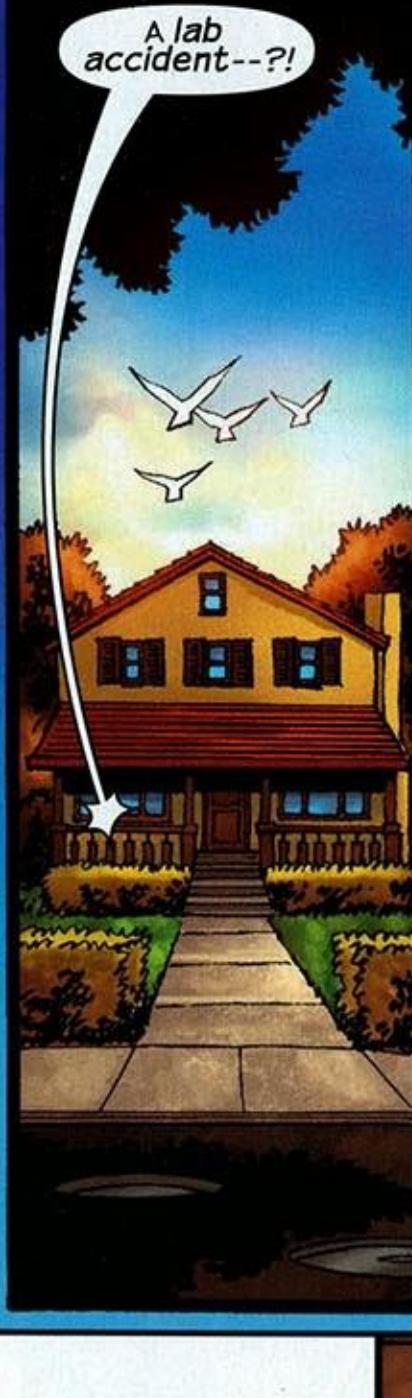

What's so strange about that?

Nothing.

Sounds perfectly reasonable--

--unless you have a *spider-sense* that warns you of danger--

--and reflexes fast enough to avoid it.

I guess.

Peter, is there *anything* I should know?

You should know everything, Mary Jane.

Absolutely *everything*.

Trust me...

...I would hate to try to keep a secret from you.

Okay.

I'll take your word for it.

A few hours later...

Thanks for meeting me after school.

You're doing me the favor.

Besides, it isn't like I have a social life anymore.

I take it things did not go well with Sara.

You have a gift for understatement.

Someone has convinced her that mankind is about to launch a war against mutants.

Isn't that what groups like *Humanity First* are all about?

*Humanity First* is a joke.

They have a couple of small chapters in the Northeast.

Their leader--Dr. Eve Manning--bought an honorary doctorate for fifty bucks on the internet.

No one takes her seriously.

Almost no one.

I know a couple of high school boneheads.

Yeah, I guess she does have some followers and--

Hey! This is very odd...

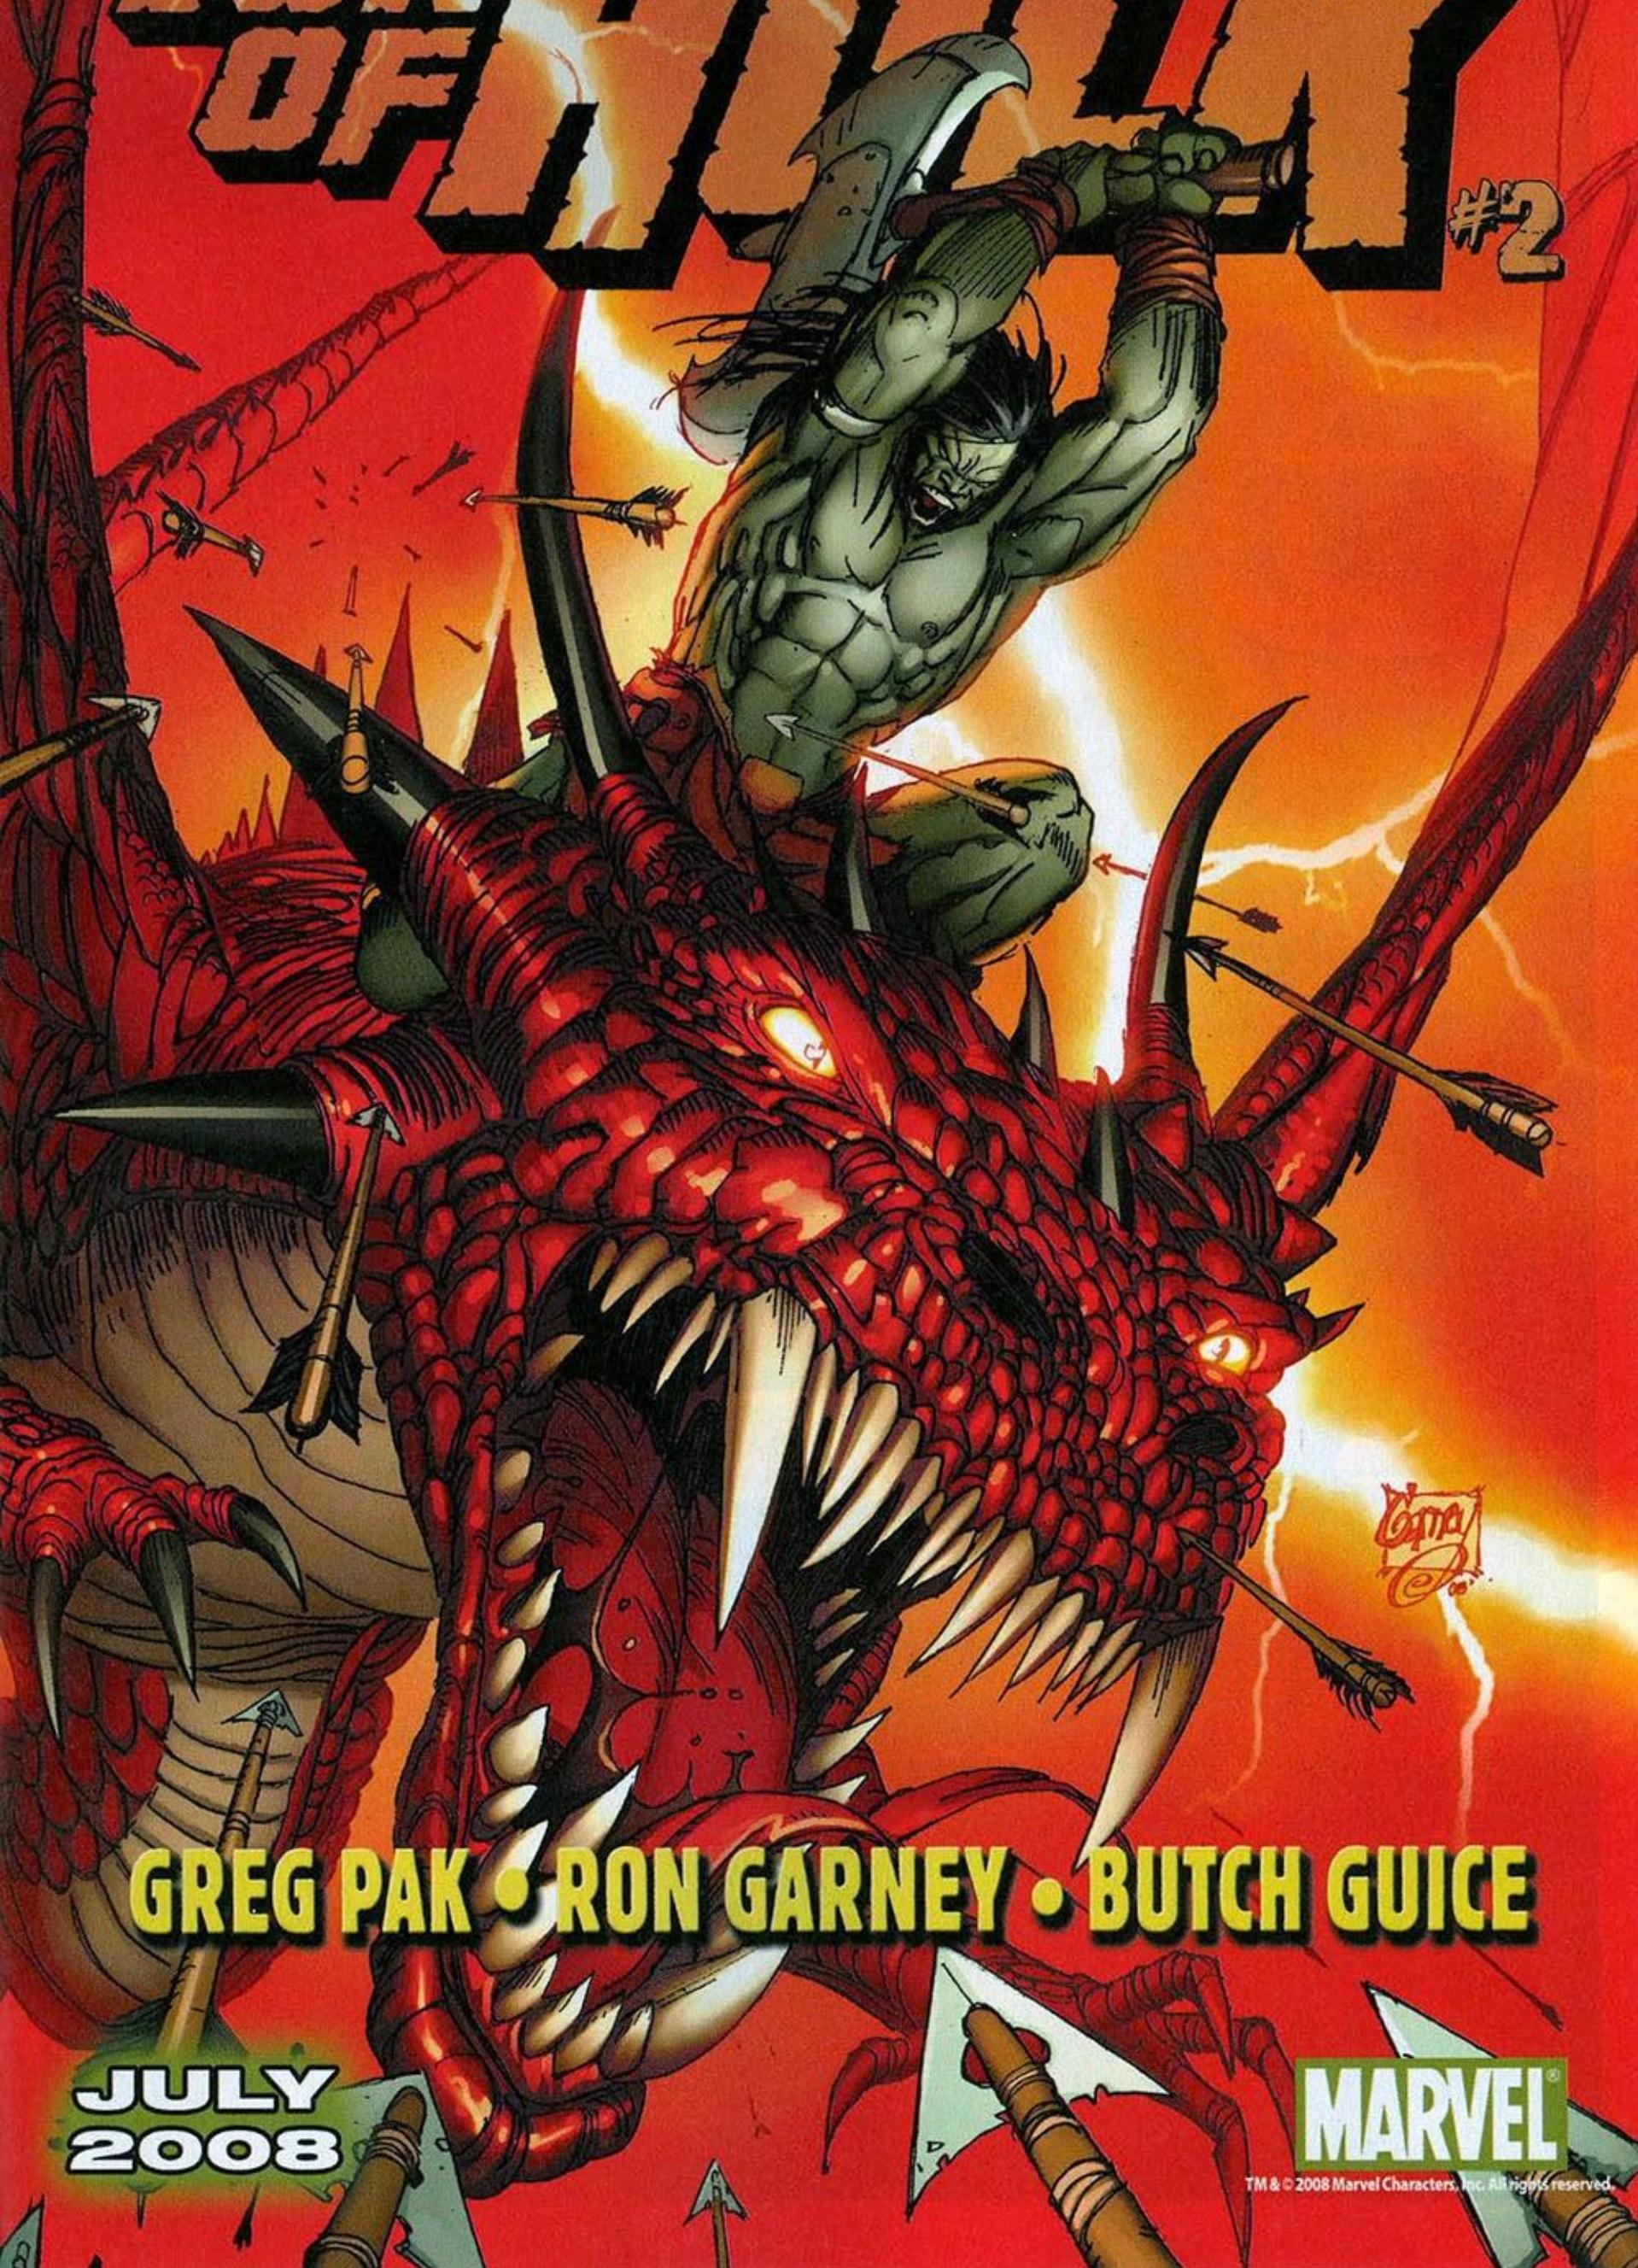

No problem.

I can still sense her.

You don't understand. These things never malfunction.

--shielding  
Sara from us!"

Hi, guys! I  
got here as  
soon as I  
could.

We hope you  
weren't followed  
this time.

We take  
security very  
seriously.

I have  
already scanned  
Sara, Impact.

We have a  
big surprise for  
you, Sara.

She took the  
appropriate precautions,  
but I will expand my probe  
to the surrounding  
neighborhood.

Our  
enemies  
are very  
devious.

You're finally  
going to meet  
our beloved  
leader.

You--?!  
I've read  
about you in  
magazines  
and on the  
internet.

Then  
you know that I  
have committed my  
life to protecting  
young mutants  
like you.

Master!  
I sense  
intruders...  
Yes,  
Headcase... I was  
already aware  
of them.  
Pay attention,  
Sara! You are about  
to see what happens  
to those who  
displease me...

D-do you feel  
something?  
Like a  
change in air  
pressure?

Yeah and  
I felt it  
before.

We've  
been  
made.

We  
need to--  
OH, NO!

What is it  
with mutants  
and rooftop  
venting?

Are you implying that all mutants are alike?

For shame, Spider-Girl!

How would you feel if I made the same generalization about everyone with a spider-themed name?

Are you accusing me of being a bigot?!

I could point out that you're also employing that "floating" thing--

--but then I'd have to apologize to Push for equating her with a poseur like you!

P-poser?!

Uhhhhh...

You do realize that's Magneta, the mistress of magnetism.

"How could things possibly get any worse?"

Trust me, Rene--you have no idea what a luxury it is to enjoy a lengthy bubble bath again.

I hope you also arranged for a facial, a manicure, a pedicure and a complete body wrap.

Yes, yes, Élan...you will soon be pampered to your heart's content.

You have suffered much during your months of incarceration and the *Sacred Order of the Goblin* is in your debt.

Can we please proceed now?

As you wish, Rene.

It will take me a few minutes--

--to input the coded number sequence I've been practicing since I was a child.

"Norman Osborn was a true genius..."

"He planned for this moment nearly sixteen years ago."

"It is a great privilege to know that we have helped contribute to Project: Changeling--"
