MOONLIGHTER

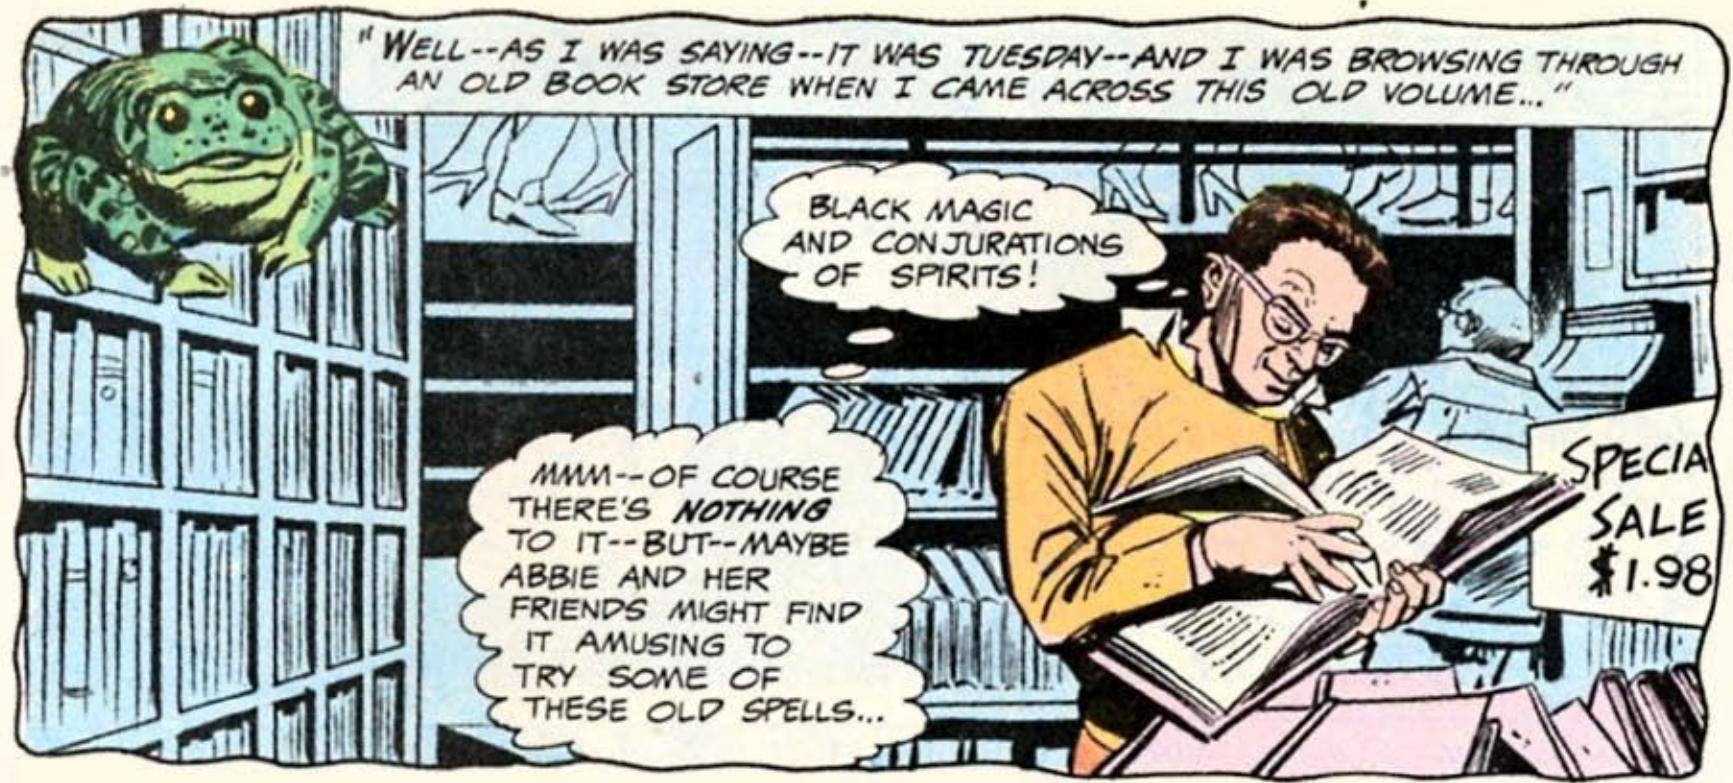

Build it yourself—Revell's
Model-of-the-Month for
November, the Saturn V Apollo.

World history was made when man set foot on the moon. Prior to July 20, a team of Revell design-engineers worked for over a year to make sure every detail of our Saturn V is precisely correct. You build all eight stages so they fit together and can be separated. Demonstrate to your friends every step of the wondrous mission. From three-stage launching to moon orbiting and landing. From crucial redocking to earth splashdown. The command module has three astronauts inside; lunar module comes complete with moon base. The 4-foot-high Saturn kit is history's most fascinating one-man voyage or group project for science classes. Under \$12 wherever toys or hobbies are sold.

WONDERFUL WORLD OF WONDER WOMAN

M-136

Dear Readers,

We've gotten a surprising amount of mail in response to the question—"Do you feel the same way Randall Way and his brothers do about the *New Wonder Woman*?" Below are some of the answers...Ed.

Agreeing with Randall Way and His Brothers.

Johnny Ubaiso of Pen Argyl, Pa.—

Wonder Woman is Dead!! And You Buried Her!!

Edith Biddle—Winnemucca, Nevada

I have never written one of these letters before, but I am so mad I could eat nails. Who do you think you are to talk about Wonder Woman and Steve Trevor like you did in Issue #184. I have a right to be mad as I have been a loyal Wonder Woman fan since she was a Lt. in the service of her adopted country, and Steve Trevor was her friend back in the Second World War. Steve was a good man, good soldier and a loyal American. To create a new person for your comics would be one thing, but to turn Wonder Woman into a stranger is unforgivable. You must be new as an Editor or else you would have more feeling for an old friend than you showed in Issue #184. Let's see if your new Wonder Woman can last the next twenty-five years or so like the *True Wonder Woman* has.

Dear Edith:

The New Wonder Woman hasn't changed all that much—she's still a loyal American—and in spite of all you felt about Steve—a lot of the readers who wrote in, felt the same way about Steve as I did. And we hope she lasts the next 50 years...but always changing with the times. Ed.

From Tony Quintana, Owasso, Oklahoma

Forget the "old"—Never! This used to be a life-time Wonder Woman fan, but I intend to drop her and buy some other book like Superman.

That's Okay, Tony—Cause we put out Superman too—we only get shookup when you go out and buy a rival company's mag. By the way your letter arrived with 2 cents postage due.

Disagreeing with Randall Way and his brothers.

Ellie Resta, Philadelphia, Pa.—

Wonder Woman #184 was fantastic. When I finished reading it, I sat stunned for a moment and then I started it over again. Keep WW the way she is now. Don't change her back to her old dull self.

I disagree WHOLEHEARTEDLY with Randall Way and his brothers. All of my sisters and brothers agree with me.

You have made WW a much better mag. Don't change for the worse. STAY with the better.

And Audrey Valente, Of New York, New York

Dear Editor:

Wow! The new Wonder Woman is great! Keep her this way. I never used to read your magazine because I knew it would be the same old thing, but now I never know what's next.

I completely disagree with Randall Way. Keep her the way she is now.

Kenneth Kraft of Michigan—

I have never written to a comics magazine before, but I feel I simply must, now that you have given Wonder Woman such a wonderful and human new look. Like, RASPBERRIES!!! In approximately 5 issues you have accomplished what no other comics magazine has dared to do. That being, to give their main character a realistic personality with HUMAN problems and emotions instead of the same old superhero characteristics. Congratulations!

From George Dolack, Passaic, New Jersey

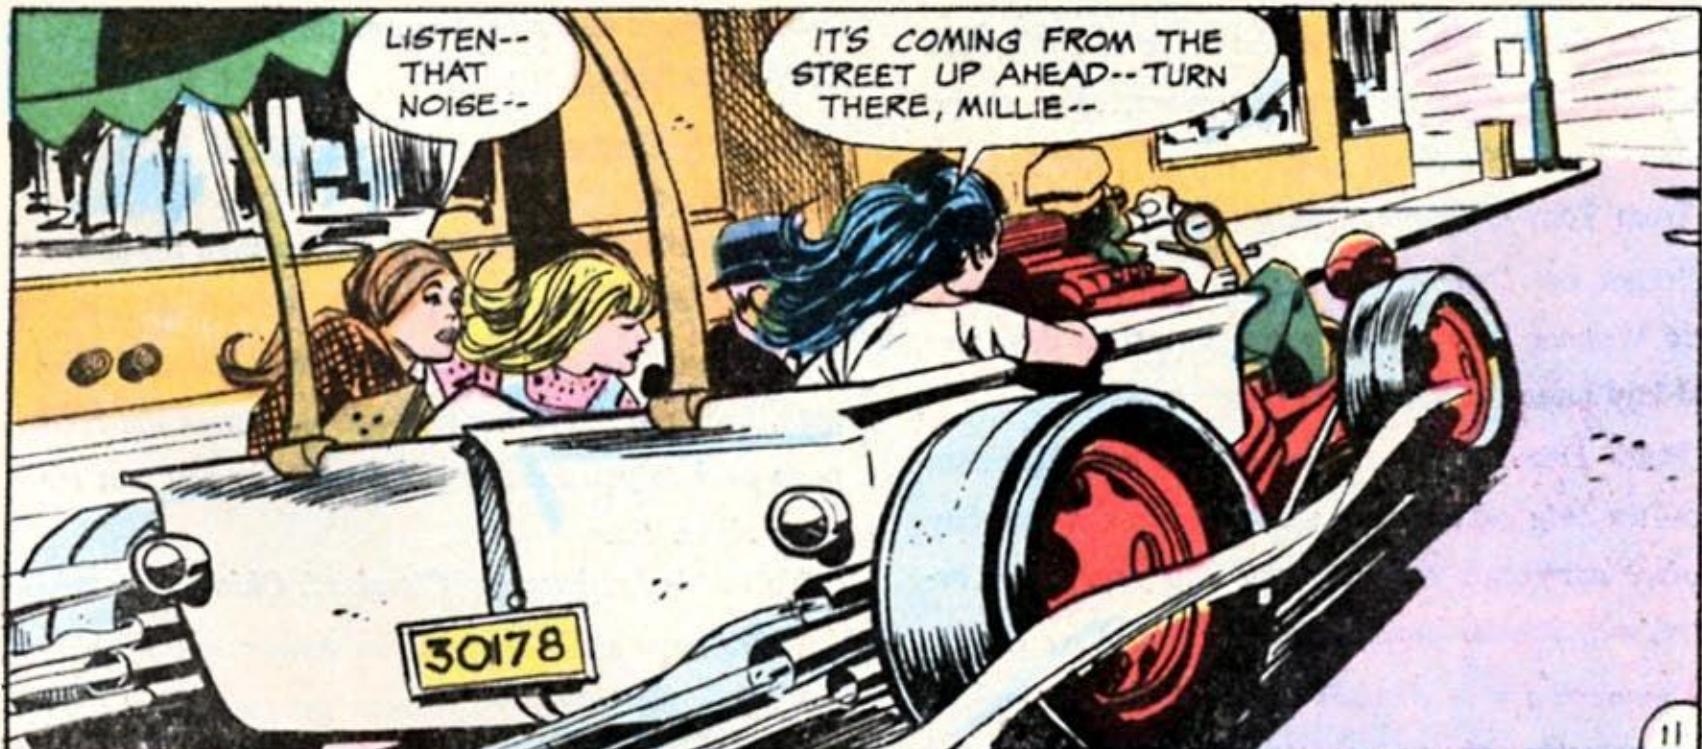

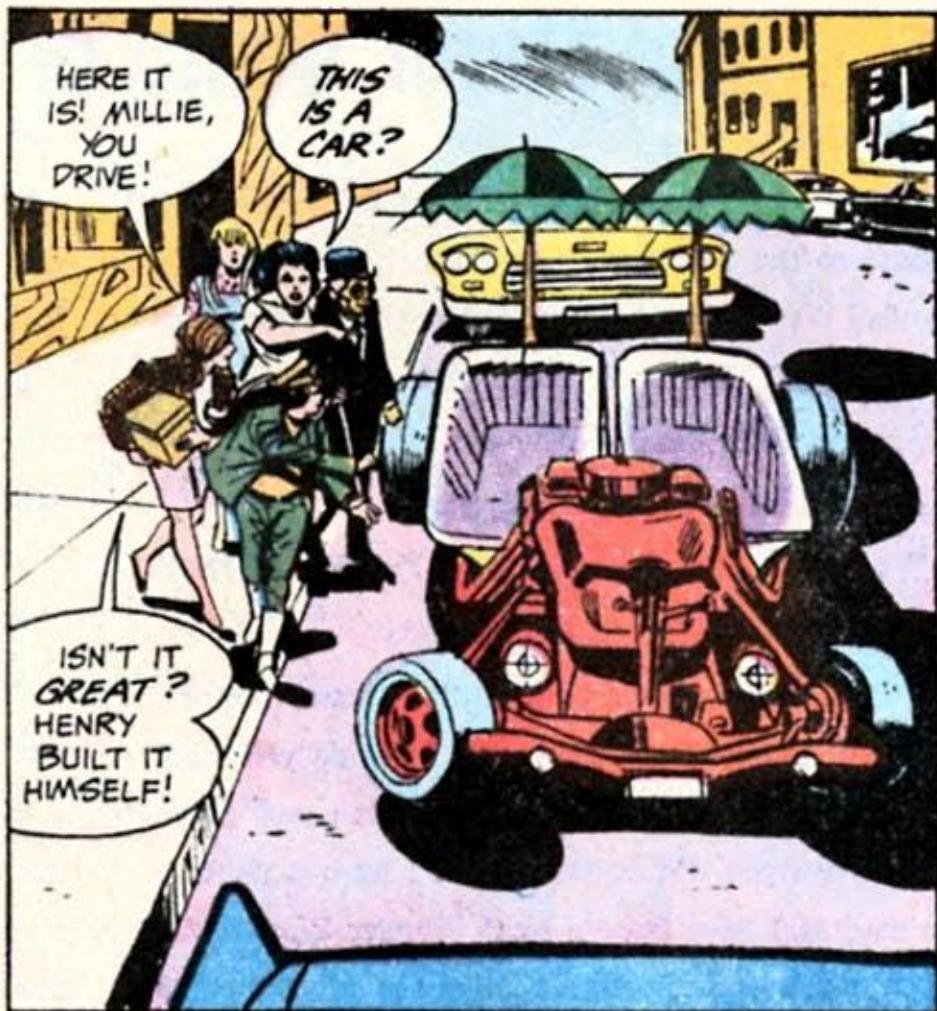

My, Boy, is she nice, the greatest, keep the NEW WONDER WOMAN!!

P.S. My brother also wants the NEW WONDER WOMAN.

To those readers who may not know what the above was all about—one of our readers, Randall Way, and his brothers, did not like the change in Wonder Woman, from the old to the new—so we turned the mail page over to you readers for a while so you can air your views. Ed.

To Hattie Lattimore of Cleveland, Ohio—

We're very sorry—but we no longer sell by subscription—the only place you can get them is at your dealer. Ed.

IT'S
HER!

IT'S--

**Which kind of TYCO action
do you prefer?**

If long-range action, planning and engineering are for you—so is TYCO HO railroading. You think out dozens of different layouts—build the one you like best. You engineer the details and realism: remote control uncoupling, log, coal and ore unloading; automatic crossing gates . . . bridges, trestles, tunnels—whole towns with TYCO trains whistling through them—and you're running the show. It's a long-range hobby you can enjoy alone—with friends or with Dad. Hours of action to last you for years to come.

If rough-and-tumble competition is for you—TYCO road-racing gives you everything but the smell of scorched rubber and the roar of the crowd. You actually race 500 miles per hour or more in true HO scale. TYCO gives you magnificently detailed cars, more action, more track. More interesting track layouts, too, that you can tear down and rebuild in minutes, with our unique snap-together "TYCO-LOK" track. Endless hours of competitive excitement will be yours with TYCO road-racing.

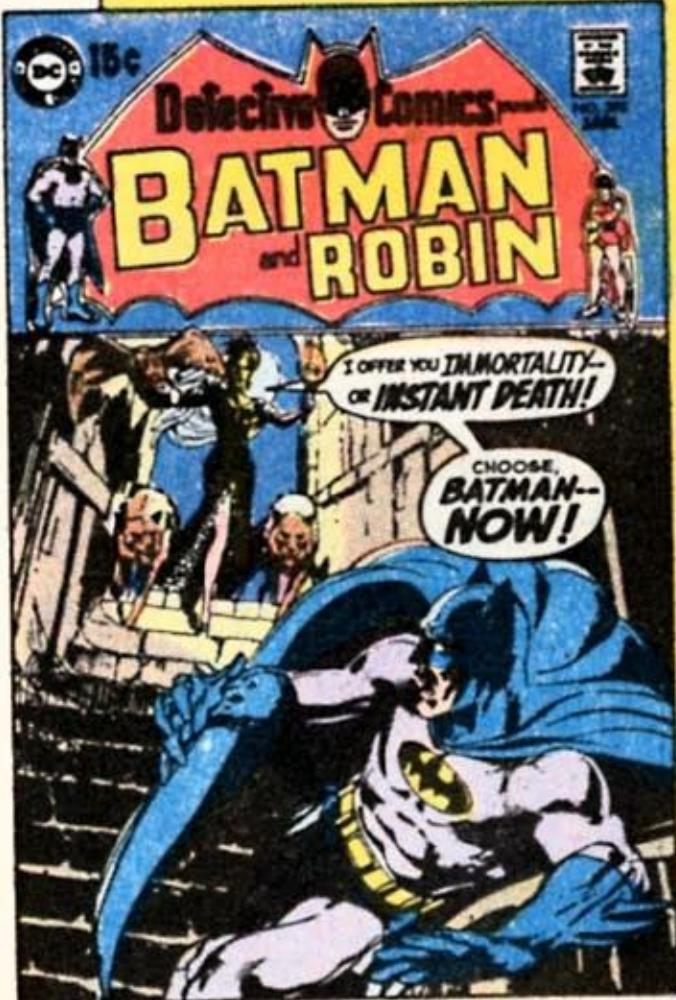

CAN'T DECIDE WHICH? Slip this under Dad's pillow. He'll probably buy both.
