SPIDER-GIRL

Hi, Tom!
Spider-Girl #11 was a tidy conclusion to a good story, though I think it would have been more fun to see May encounter Peter in the more nerdy phase of her Dad's past. Still, I did spot a mistake...mind if I try for a No-Prize?

When Spidey leaves his empty costume in the clutches of the Spider-Slayer to get Jameson's goat he remarks, "It's worth losing my spare Spidey costume." A short time later that day he's shown in full costume trying to put the kibosh on May. Just one little problem; according to Amazing Spider-Man #25 where this story takes place, Peter comes home to find that Aunt May has found his one other costume while tidying his room, and has confiscated it.

Ah, but before you start hiding from the Continuity Police, I have the answer. When May showed up at her great-aunt's house to see Peter and finds Betty, Liz and her Mom there (as also shown in ASM#25) her unexpected presence causes the visit to go longer. Because of that Aunt May does not get to her housecleaning until later and by that time Peter has returned home, changed into his fighting togs and is swinging out the window before she even has the vacuum out.

How'd I do? I've waited 33 years to win a No-Prize...is my wait over?

Craig D. Smith
Norwalk, CA

Congratulations, Craig! You have won no prize...so please don't expect one. Your explanation is good, but it doesn't go far enough. We merely assumed that Aunt May found Pete's spare costume sometime after his final encounter with Mayday.

Dear Tom,

First off, let me respond to something in Issue #11's letters page from Ms. Ashley McCarty. Maybe, just maybe, May's powers were manifesting a little earlier than either Peter or MJ realized, and maybe Peter wasn't ready to accept the fact that his only child had gained her "inheritance" so soon. Hence, he put the brakes, or at least tried to, on May's budding career until he realized that even though she's a rookie in this biz, May's smart enough to recognize the responsibility that comes with her powers, though she still is oftentimes in over her head.

A case in point is Issue #11. May and Spyral wound up far into the past, back when Peter and MJ were May's age. The anomaly that came out of this was May's encountering the first Spider-Slayer commissioned by J. Jonah Jameson, and since her costume is similar to her father's, the confusion was obvious. For May to discover that the Human Torch had a chip on his shoulder the size of a case of batteries (think of those old Robert Conrad commercials) as opposed to being the sage leader of the Fantastic Five in her present was also a shock, but I'm sure she knows a few jocks with similar egos.

Is it just me, or does Spyral resemble the old Spider-Man villain called the Black Fox? Similar costume, different color, and both men seem to be around the same age. Related, or the same man from different dimensions? Who knows?

We do, Jacob...but we're not talking!

Dear Webheads,

I'm just a little disappointed about the recent

Dear Spider-People,

I picked up What If #105-- the first appearance of Spider-Girl -- on a whim, and have never regretted it.

Alternate futures usually don't interest me, but you have done such an outstanding job of characterization with this title and A-Next that I had to let you know how I feel. Thanks for a couple of fun titles!

We're sorry you didn't like our story, William. We'll promise to try to do better...if you promise to get out more.

Dear Spider-Girl,

Could you have a new Ghost Rider in MC-2...a female one?

Mackenzie Murdock
Winnipeg, Manitoba
Canada

We certainly could, Mackenzie... if enough readers demand her!

Dear Spider-Girl,

I think Spider-Girl is a bigger hero than her father. Peter's uncle died because of Spider-Man's inaction, but May would never have let that happen.

Jeremy Woolard
Knightdale, NC

Everyone makes mistakes, Jeremy. May has the benefit of learning from her father's errors.

Greetings all,

I usually try not to judge a story on the basis of pre-hype only, but I must say I'm a bit alarmed at the advertising for Spider-Girl Annual #1. Spider-Girl has quickly become one of my favorite titles. May is a great character! However, one of the major hooks for this series - at least for me - is to see Peter and Mary Jane as parents (after the regular Spider-Man series chickened out of the idea). And it's such a cliche for teen heroes to lose their parents! It's much more original to see May interact with parents who reluctantly accept her lifestyle. Hopefully you're leading us up the garden path with the advance plot synopsis, because killing Peter and MJ is a great way to alienate your audience! So please DON'T!

Otherwise, keep up the great work on the whole MC-2 line!

A.D. Musgrave
(Address withheld by request)

Okay, A.D...what did you think about the Spider-Girl Annual after you read it?
