THE NEW WONDERFUL WORLD OF WONDER WOMAN

Dear Editor:

What's wrong with fantasy? Why can't we have a magazine that is pure fiction? I am talking about the old Wonder Woman. You have taken the "Wonder" out of Wonder Woman. If other people want realism in everything they see or read, let them read the newspapers or watch the news on TV. I thought reading comics was for escape into make believe and a form of relaxation? I guess I am wrong.

I hate to admit it but I like Tim, but I liked Steve Trevor better. Why did you bump him off? He was a good character you could have done a lot more with him than you have done.

Bring back the Amazons and Steve. Let Tim become a character that pops up every so often in the book.

Please bring Wonder Woman back and forget about that strange woman who had her book for the last two or three issues.

Peggy Sarokin of N.Y.C..

Dear Peggy:

When you've read Wonder Woman No.'s 183 and 184, I think you'll have had your fill of amazons and fantasy for a while—Diana will continue to make visits back home now and then—but, she's going to be making today's scene mostly. As for Steve—frankly—he was just too dumb and boring for the new Wonder Woman.

Dear Editor:

The New Wonder Woman is positively great! Please keep her this way forever! When I first picked up No. 179, I thought it would be some kind of *blah* thing where something happens to her and she gets all unhappy and then near the end of the mag, it comes out all right. Boy, was I wrong!—WOW! I hope the new Wonder Woman stays the way she is always and always!

Debbie:

Debbie Frick, Castro Valley, Calif.

Thank you—and we're going to do our best to see

that the new Wonder Woman doesn't become a *blah* mag ever again!

From Randall Way, Los Angeles, Calif.

I would like to tell you that writing this letter gives me no pleasure or satisfaction. I don't enjoy writing this, but here goes!

WHAT HAVE YOU DONE? The change in Wonder Woman—her mother and the Amazons leaving—this is *outrageous!* Wonder Woman used to be my favorite comic, but since this new change I don't enjoy Wonder Woman so much. My brothers feel the same way. I say—Forget the new, *Bring Back the old!*

Dear Randall:

You can't mean that! You mean you really want that dowdy, grim, short, fat, square, frumpy Wonder Woman back? And your brothers, too? Randall, I just don't know what to say to you—except, perhaps to read the following excerpts from some other fans—

From Paul Dushkind, Fairfax, Calif.—

Wonder Woman #178 came out today! WOW! DC has finally gotten the message, after years of putting out childish junk. NPP has finally decided to start putting out good stuff.

From Glen Baker, Decatur, Illinois.

To put it bluntly, the New Wonder Woman is the greatest. The New Wonder Woman is the best effort DC has ever put forth to bring a big change in a comic book character.

And from W.L.C., San Diego, California—

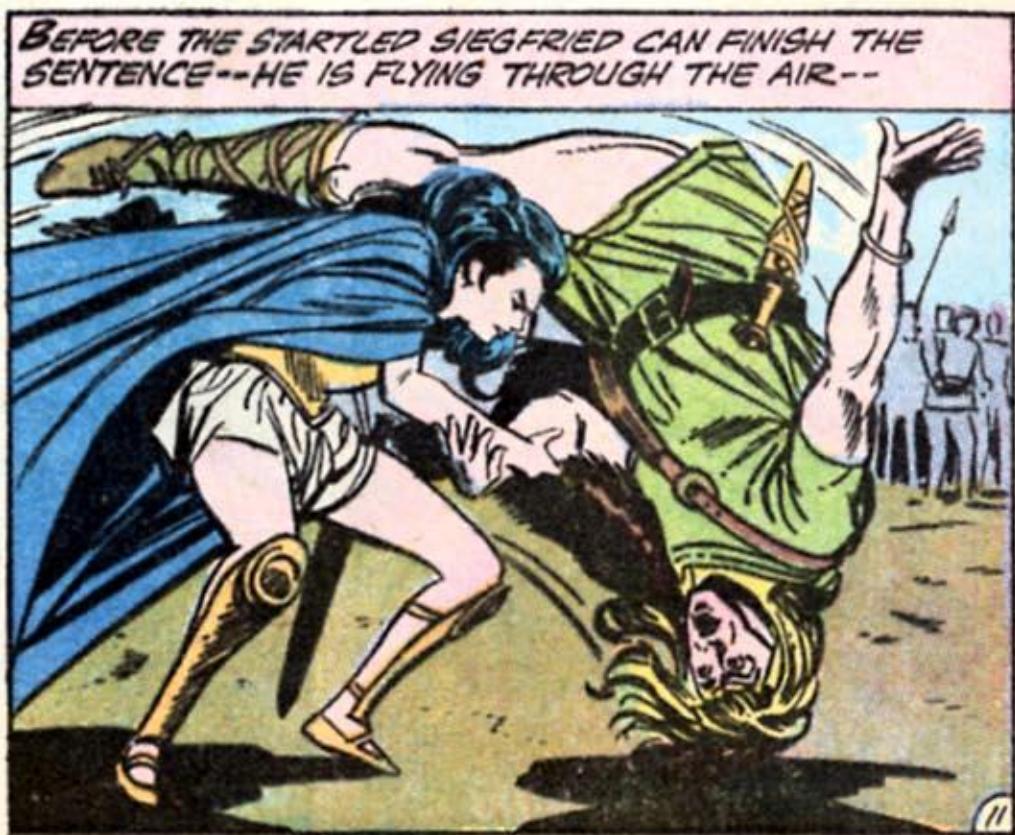

Wonder Woman is now a "real" woman with the same emotions as I have. Wow, she really has what counts!

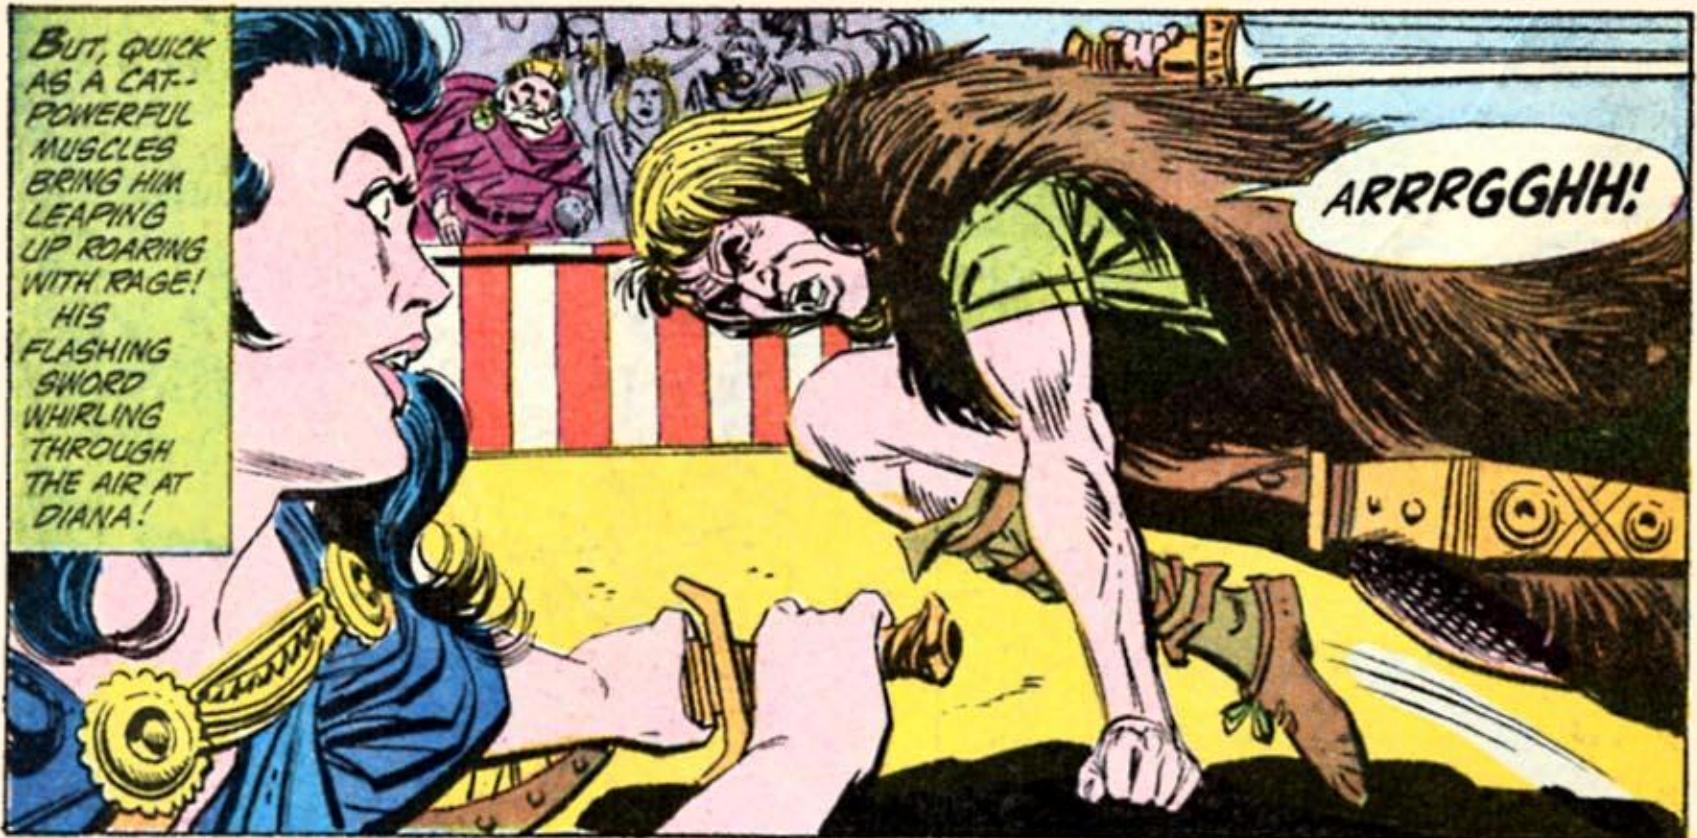

There you have it readers—Are Randall Way and his brothers right—or are the others?

GROW AMAZING LIVE SEA-MONKEYS!

Just Add Water —
you've got "INSTANT LIFE"®

Yes, it's the living truth! In only five minutes you will actually hatch a whole tumbling, playful, happy troupe of Sea-Monkeys that are even more fun than a zoo full of chattering, howling jungle monkeys! World's most amazing new pet, children and adults alike will laugh and thrill with wonderful excitement. Watch the comic antics of these fantastic underwater buffoons that are really alive. Any minute of the day or night, you'll see them chase one another in a playful game of tag. The loser gets caught by his tail and is spun in a dizzy circle. See the "showoffs" turn cartwheels of joy in the water... see the ticklish ones "scratch" each other's backs. Watch them swim singly or in ever-changing graceful formations, creating a live sea-circus.

Watch the Miracle of Life

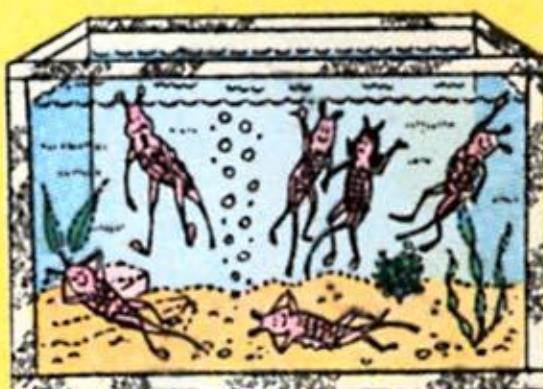

These genuine living sea animals begin life from a seemingly inanimate handful of glittering crystals which contain the secret of life. A fantastic genetic material that stays alive for as long as twenty years. And these delightful pets that are born alive are so tiny... only three-quarters of an inch long when full grown, you raise an entire troupe in an ordinary glass of water from your sink. It's so safe, just empty the package of crystals we send you into the fish bowl of water and you will immediately see "Instant Life." Best of all, you can create a whole new brood at any time, to give as gifts or sell if you wish.

They Obey Your Silent Commands

You can actually make these marvelous Sea Monkeys behave like a bunch of trained seals as they follow a beam of light anywhere. Just darken the room and watch them follow a flashlight or candle beam forward, backward, sideways or around like a pack of happy kids playing Follow the Leader. So don't delay! Order now.
