SPIDER-MAN

High schooler Miles Morales was bitten by a stolen, genetically altered spider, which granted him incredible arachnid-like powers. He used his abilities to become the super hero SPIDER-MAN. Lately, he's been having trouble keeping his heroic and private lives apart. The time-traveling mutant Cable has approached Miles' father with a mysterious opportunity, and when his school friend Lana was in trouble, she asked for Spider-Man's help.

Lana's mother had joined the new Iron Spider's Sinister Six on the heist of a lifetime--stealing a never-used S.H.I.E.L.D. Helicarrier--and forced Lana to come along to use the full force of their Bombshell powers. Miles was ready to fight anyone to help Lana get out of it, but then the web of his two lives tangled further: the Iron Spider was his uncle Aaron Davis, back from the dead.

While Miles figured out what to do, he sent his parents (recently reconciled after his mother forgave his father for concealing Miles' Spider-Man identity from her) out of the city to be safe from Aaron.
