EVENT LEVIATHAN

A **DC NATION** INTERVIEW WITH WRITER **BRIAN MICHAEL BENDIS**

What can you tell us about the story?

In the pages of ACTION COMICS, someone named Leviathan has single-handedly destroyed all of the secret organizations that make up the backbone of the DC Universe—A.R.G.U.S., the DEO and Spyral. Everything is in chaos and nobody knows who has done this or how they have accumulated the power and resources to accomplish it.

Now, the greatest detectives in the world, including Batman, the Question, Green Arrow, Plastic Man and Lois Lane must come together to solve the mystery of who Leviathan is.

Major organizations and tentpoles of society have fallen and if these heroes can't figure out who did it and why there may not be a tomorrow that resembles the world they have today.

What's it like working with Alex Maleev again?

I love collaborating with Alex. We have made our best books together. From his earliest work on *Daredevil* all the way to our run on SCARLET for DC this year, Alex just brings out something in me that inspires me. This storyline was created specifically for him based on what I knew he wanted to do in the DC Universe.

How does this tie into the current DC Universe?

When the story line is over, major parts of the DC Universe will not be the same. There will be survivors and they will have a very specific agenda. Very big pieces are being blown up and new big pieces are being put in their place.

Why should fans check this out?

There are a lot of fans who want to hear that something is really going to happen. This is one time it will. This is the rise of a giant new villain/antagonist in the DC Universe. When people find

out who it is and why they are doing what they are doing, they might find themselves deeply challenged.

Leviathan is selling a new world order that is something a lot of people can get behind. It's how this person is doing it that individuals will have a problem with.

What do first-time readers need to know before picking this up?

This is a big mystery thriller. A whodunit! It's a rarity in mainstream comics and that's what we love about it. It's a front row seat to very new things in the DCU.
